

The screenshot shows the Microsoft Azure portal homepage. At the top, there is a navigation bar with the Microsoft Azure logo, an 'Upgrade' button, a search bar containing 'Search resources, services, and docs (G+)', a 'Copilot' button, and user account information for 'ashwinkr676@gmail.com' and 'DEFAULT DIRECTORY (ASHWINK...)'. Below the navigation bar is a section titled 'Azure services' with various service icons and links: 'Create a resource', 'Cost Management', 'Azure Databricks', 'Storage accounts', 'Virtual machines', 'Quickstart Center', 'Foundry', 'Kubernetes services', 'App Services', and 'More services'. The main content area is titled 'Resources' and includes tabs for 'Recent' (which is selected) and 'Favorite'. It lists three recent resources: 'my_res' (Resource group, last viewed a few seconds ago), 'Retailstore_analysis' (Azure Databricks Service, last viewed 3 hours ago), and 'mystore12345678' (Storage account, last viewed 3 hours ago). Below this is a 'See all' link. The 'Navigate' section contains links for 'Subscriptions', 'Resource groups', 'All resources', and 'Dashboard'. The 'Tools' section is partially visible at the bottom.
